NEW CAR LOAN SPECIAL

This year's semi-annual car loan special will again be held for an entire month, from April 1st thru April 30th. Don't be misled by introductory offers and hard to qualify special rates from car dealers. We offer our members 2.9% for up to 48 months, and 3.9% for up to 60 months and a special 4.9% for 72 months. That's savings they can't match and it's that simple.

SPRING TIME IS NO TIME for PHISHING

Phishing pronounced (fishing) is when a person sends out an email to thousands of people trying to trick them into responding to an urgent request to update their personal information. The email pretends to be from a bank or credit card company and claims that there is a problem with your account. If you don't update your information quickly, all your information with that company will be lost. Companies will never ask you to update your information by email. Contact the company by phone before you update any information. Don't get caught by someone "phishing" for your personal information.

ELECTION NOTICE

The nominating committee has recommended the current incumbents, Ms. Lynn Schieler and Mr. Lenny Spero for the two (2) Board of Director positions up for a vote this year.

FICO SCORE UNDER

CONSTRUCTION

Many people have asked what is a FICO score and how can I build the best score. The FICO score is a number that many institutions use to determine your credit worthiness. While it is difficult to increase your score over the short run, here are some tips to increase your score over a period of time.

- Pay your bills on time. Late payments and collections can have a serious impact on your score.
- Do not apply for credit frequently. Having a large number of inquiries on your credit report can worsen your score.
- Reduce your credit-card balances. If you are “maxed” out on your credit cards, this will affect your credit score negatively.
- If you have limited credit, obtain additional credit. Not having sufficient credit can negatively impact your score.
